Block-1 Aptitude Day-1

1) Given

A number increased by 20% becomes 120

Formula = $\frac{F}{1+\frac{P}{100}} = \frac{120}{1+\frac{20}{100}}$

$= \frac{120}{1.2} \times 10 = \frac{1200}{12}$

$= 100$

original number is 100

2) Initial prize = ₹ 50,000

Increased = ₹ 60,000

Difference = 50000 - 60000

= ₹10000

100% = 50,000

x% = 10,000

$\frac{100}{x} = \frac{5\cancel{0}\cancel{0}\cancel{0}\cancel{0}}{1\cancel{0}\cancel{0}\cancel{0}\cancel{0}}$

$100 = 5x$

$\frac{\cancel{100}}{\cancel{5}} = x$

20% = x

Increased percentage = 20%

3) 72 out of 90

$100\% = 90$

$x\% = 72$

$\frac{100}{x} = \frac{\cancel{90}\,5}{\cancel{72}\,4}$

$4(100) = 5(x)$

$400 = 5x$

$\frac{\overset{80}{\cancel{400}}}{\cancel{5}} = x$

$x = 80\%$

④ $100\% = 50{,}000$ (initial population)

$x\% = 60{,}000$ (increased)

$\frac{100}{x} = \frac{5\cancel{0}\cancel{0}\cancel{0}\cancel{0}}{6\cancel{0}\cancel{0}\cancel{0}\cancel{0}}$

$600 = 5x$

$\frac{\overset{120}{\cancel{600}}}{\cancel{5}} = x$

$120\% = x$

Increase percentage $= 120 - 100$

$= 20\%$

⑤ original cost $= ₹800$

Discount $= 25\%$

$100\% = 800$

$25\% = ?$

$$\frac{100}{25} = \frac{800}{x}$$

$$4(x) = 1(800)$$

$$4x = 800$$

$$x = \frac{800}{4}$$

$$x = 200$$

Discount $= x = 200$

Final prize $= 800 - 200$

$= 600$

Block - 2

Verbal Ability

1) main idea of the passage?

⇒ Technology is changing how business work and companies are now using data to make smart decision

2) Technologies.

⇒ Artifical Intelligence (AI)

⇒ Machine Learning

⇒ Automation

3) why are companies relying on data-driven decision?

⇒ To operate more efficiently and make informed choices in a rapidly changing technological Environment.

Grammer Correction

1) She don't understand the problem.

⇒ She doesn't understand the problem

2) He have completed the task.

⇒ He has completed the task

3) They was going to the meeting?

⇒ They were going to the meeting.

Blackg
Communication

I am Sachin from Attur. I am currently pursuing B.E in computer science Engineering with specialization in cyber Security. I completed my schooling at Government higher Secondary School, Keeripatty. I Know programming language such as Java and basics of python. I also have practical experience in mern stack development. I have completed three projects, There are Event management system, compliant management system and quiz Application. My short-term goal is to get placed in a good company and my long time goal is to achieve a better position in the same company and grow professionally.
